Juan Sebastián González Rojas

2022.

Debe instalar la herramienta postman

```
1 pm.test("User registration is successful", () => {
2   try {
3     // Attempt to parse the response as JSON
4     const jsonResponse = pm.
      response.json();
5
6     // Check if the response
      JSON has a property
      indicating successful
      registration.
7     pm.expect(jsonResponse).to.
      have.property
      ('success');
```

Test scripts are written in JavaScript, and are run after the response is received. Learn more about [tests scripts](#)
